Subject: Cling Window Stickers for CERT's

I am asking for the LAHCFD Board to approve a CERT Window sticker that will be issued to CERT members to be used in the event of an emergency or when we hold drills where CERT members will be driving through the area. In several of the past drills, even though we have tried to get the word out to the citizens that we are holding a drill, several of them have approached our CERT members asking what they are doing driving around their neighborhood's. A couple of times they have even called the Sheriff to have an officer come out to investigate.

Currently we have an 8 ½" x 11" paper sign that just lies on the dash area of a vehicle. By having these new cling adhesive signs they can be applied to the windows of a vehicle, thus providing better visibility to the citizens of who we are and what we are doing.

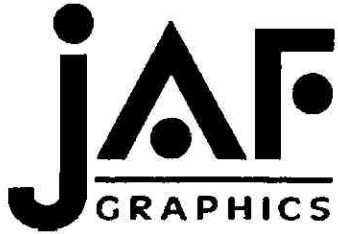

The signs are called Window Clings, they are printed on a 4/0 clear 8ml stock. The size will be 8 ½" x 11". I will have an example of the type of window sticker we are looking to purchase at the next LAHCFD Board meeting.

Cost for the new stickers \$ 499.00 for 300 stickers.

I hope this can be approved, ordered and distributed by our next CERT exercise in May 2013.

Thanks for your continued support to our CERT programs.
