Subject: Fire Report for January 2015

To Whom It May Concern:

The January 2015 fire reports for the Los Altos Hills County Fire District are enclosed:

1. Average Response Time Analysis: This report provides data for the last three fiscal years on the average time it took for each first-in unit to arrive on scene. The computation starts from the moment the dispatcher makes his/her first keystroke at the command panel (after the call has been handed-off by the Emergency 911 telephone handler). This information is also graphically represented in the accompanying bar charts.

The average response times for Code 3 calls were as follows:

Rescue 74: 5.98
Engine 75: 7.50
Engine 76: 4.88

2. Incident Types by Month: This report summarizes on a monthly basis, the number of incidents by call type, for every emergency vehicle that was the first unit on-scene. This information is also graphically represented in a pie chart depicting the number of incidents by type.
3. Monetary Fire Loss by Month and Incident Type: This report presents the monthly dollar loss in each of the fire type categories for the last three fiscal years.

The fire loss for this month was \$16,500.

Please let me know if you have any questions about the data contained in this report.

Sincerely,

Fred A. Schulenburg
Director of Business Services
