

Notice of Cancellation
December 18, 2018 Fire Commission Meeting

December 14, 2018

The December 18, 2018 Meeting of the Fire Commission was cancelled on December 13, 2018 and Fire Commissioners were electronically notified of the cancellation.

In light of the fact that the President of the Fire Commission would be sworn-in as a newly elected member of the Los Altos Hills City Council on December 13, 2018 and that two other members of the Los Altos Hills City Council are currently seated as members of the Fire Commission, it was deemed necessary for various solutions to be considered to resolve any issues that may arise from this composition of the City Council members sitting on the Fire Commission. Time is needed to analyze and address any issues prior to the January 15, 2019 meeting of the Fire Commission.

While it was hoped to hold the December 18, Commission meeting, most of the agenda items were informational. One of the action items was for the Fire Commissioners to consider action on the Cost Sharing Agreement with Purissima Hills Water District. After discussion with the Water District on December 13, 2018, it was determined that no hold-up on the project would occur if the Fire Commission meeting were cancelled resulting in no action being taken on the Cost Sharing Agreement.

Given all these factors, it was determined that the December 18, 2018 Regular Fire Commission meeting would be cancelled, notices distributed, and planning would ensue for the January 15, 2019 Regular meeting of the Fire Commission.

End of Notification Statement
