

<p>Goal</p>	<p>1. Update LAHCFD Community Wildfire Protection Program (CWPP) Annex 4 and Addendum for Residents Annex 4 is our local CWPP which describes wildfire hazards and mitigation measures to meet our community’s unique local, social and ecological characteristics</p>	<p>2. Implement County Management Audit As a dependent district of the County the LAHCFD will operate within parameters established by the County</p>	<p>3. Integrated Hazardous Fuel Reduction Programs Fund, create and implement programs based on fire science, CWPP/Annex 4 and the annual budget to enhance community resiliency, educate District residents and reduce fire fuel hazards</p>	<p>4. Develop process for hydrant maintenance, repair, locations and additions Continue community fire protection through maintenance of District 540 hydrants, infrastructure and evaluate pipeline resiliency when opportunities for improvements occur</p>	<p>5. Expand efforts with regional agencies to collaborate and share resources, and align communication Build relationships with regional organizations to identify common interests and participate in initiatives together that strengthen community resiliency and transparency</p>	<p>6. Organizational Flexibility and Adaptation Maintain organizational structure aligned with the District’s Mission and Goals; utilize available resources and adapt to a regional approach for community resiliency</p>
<p>Objectives</p>	<p>a. Develop a timeline for action steps for a public process with stakeholders and community members</p> <p>b. Identify experts and resources to be consulted during this process</p> <p>c. Research and hold meetings with experts and resources to identify current best practices for CWPP</p>	<p>a. Review County Management Audit findings; report monthly to County Committees and Management Audit Division</p> <p>b. Implement County procurement policies and procedures, including record</p>	<p>a. Identify high fire risk areas to enable discussion on potential action steps by District in collaboration with regional partners and Central Fire</p> <p>b. Evaluate construction of shaded fuel breaks and fire breaks where open space is adjacent to District boundaries</p>	<p>a. Develop policies and guidelines for hydrant and infrastructure location, replacements and additions in coordination with Central Fire</p> <p>b. Evaluate and prioritize projects for adequate hydrant fire protection when</p>	<p>a. Explore joint projects with neighboring agencies that affect our overlapping and adjacent service areas to provide resilience from wildfire</p> <p>b. Participate in LAFCO Countywide Fire Protection Services Review and County Comprehensive Review of Fire Services that will report on County Fire Protection</p> <p>c. Collaborate with LAH Town to support fire and emergency</p>	<p>a. Align role of Commission and personnel to service delivery needs, LAFCO findings and County regional fire protection plan study</p> <p>b. Provide resources to maintain a sustainable administration to</p>

	<p>d. Collaborate with Central Fire Department personnel to align Annex 4 CWPP with County regional fire protection plan</p> <p>e. Upon completion of CWPP Annex 4, revise Addendum Guide for Residents</p> <p>f. Create a communication plan for residents and stakeholders to educate those who live in and work with the District to understand the revised CWPP</p>	<p>retention and storage procedures</p> <p>c. Work with County Counsel to identify District parameters for capital expenditures, and any other requirements for allocation of District resources</p>	<p>c. Continue to partner with regional organizations to support Home Ignition Zone (HIZ) surveys of properties and provide action items for life and property fire safety</p> <p>d. Create certificate of completion for HIZ participants to provide to their homeowner’s insurance carrier</p> <p>e. Consider incentive programs consistent with CWPP and County Management Audit to motivate property owners to improve property hygiene and home hardening against fire danger</p> <p>f. Use technology to strategically target fuel mitigation program delivery (GIS for brush chipping, shaded fuel breaks)</p> <p>g. Seek resident, vendor, staff and volunteer input for continuous improvement feedback to create, enhance and expand programs</p>	<p>opportunities occur and within County guidelines for capital expenditures</p> <p>c. Develop hydrant and infrastructure mapping and asset identification system utilizing GIS</p>	<p>protection efforts, align outreach communications and strengthen fire and emergency safety for community</p> <p>d. Expand efforts to use technology to improve regional communication including early warning systems (Zonehaven)</p> <p>e. Continue to support, encourage and revitalize Los Altos Hills Community Emergency Response Team (CERT) Program, network with regional CERT and FEMA, and support ARK/supplies and equipment</p> <p>f. Continue to support, encourage and revitalize Amateur Radio operator activities</p> <p>g. Expand outreach by evaluating new opportunities to drive community to website to find current updates and critical information</p> <p>h. Continue to produce videos to educate the public</p>	<p>meet District operational needs</p> <p>c. Create succession plan to support continuity in staffing</p> <p>d. Identify adequate space for training, District meetings and District assets</p>
